Department Forecasts

CROPS smaller, but prices lower.

RED CLOVER—Crop slightly larger. Carry-over much smaller. Prices \$5.65 lower than year ago.

ALSYKE—Crop larger. Carry-over smaller. Price \$4.00 lower than last year. No imports and large exports (unusual).

WHITE CLOVER—Prices \$11.25 lower. Domestic crop almost a failure. European crop good.

SWEET CLOVER—Crop one-third less than last year. Prices \$1.60 lower.

ALFALFA—Smallest crop in five years. Shortage in-

creased by the heaviest exports to Europe in a generation. Despite that fact prices as yet no higher than last year.

TIMOTHY—Production 15% short. Exports heavy but prices \$1.60 lower than last year.

REDTOP—Large carry-over. Price down \$4.95.

BLUEGRASS—Down \$5.15 although crop and carry-over down 10% from this time last year.

ORCHARD—One-fourth of a crop. \$1.00 down.

FANCY GRASSES—Prices all down.

When Mark Twain was a newspaper editor, an old subscriber wrote to him that he

had found a spider between the pages and did it mean good or bad luck. Twain replied that the spider was just looking for the merchant who was not advertising so he could go and spin a web across his door and live a life of undisturbed peace ever after.

No spider is spinning a web across OUR door. We are out every day looking for better seeds, better ways of cleaning them, cheaper ways of getting them to you, better service and more orders from you for us.

Every college and experiment station is advocating the seeding down of more hay and pasture crops.

Potato production in the United States is estimated to be fifteen million bushels less than last year. Quality in Aroostook County, Maine, rather poor.

Production of Certified Potatoes 20% less than last year.

There are 6,000,000 farmers in the country. 40% are mortgaged. 14% for more than half their value, 6% for more than three-quarters of their value, 2% for more than their current value. Average mortgage \$3,600.00.

Although 1932 was the worst year this generation has ever known, R. G. Dun & Company say only 2% of the firms in business failed.
